ELECTRICAL REQUIREMENTS or RECOMMENDATIONS:

When planning a salon, contractors will need to know what the electrical power requirements will be in order to determine the correct electrical panel and wire sizes. Following are minimums:

- 1. Styling Station 110 volts, 20 amps ... for each hair stylist.**
- 2. Wet Booth Units ... 110 volts, 20 amps, GFI ... for each station.**
- 3. Hair Dryers 110 volts, 10 amps ... for each hair dryer.**
- 4. Electric Shampoo Chair 110 volts, 10 amps ... for each chair.**
- 5. Pedicure Units 110 volts, 30 amps ... for each pedicure unit.**
