

## California's Prop 65 Labeling Law

 **WARNING:** Cancer and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

Please see below for the warning label that is provided with each of these manufactured products:

California Proposition 65 is an initiative to address concerns about potential exposure to toxic chemicals and thus requires businesses to provide warnings to Californians for products sold that may contain stated chemicals or ingredients. The warnings are intended to help Californians make informed decisions about their exposures to these chemicals from the products they use and the places they go.
